

Elara Screen Series

Professional Fixed-Frame Screens for Maximum Quality and Image Enhancement

The Elara Fixed-Frame Screen series is a high performance, elegant velvet screen designed with image quality, versatility, and performance in mind. The screens are ideal for home theatre environments and come in 4 different materials which are well suited for an array of home theatre setups.

Available in Four Different Screen Materials: 1.2 Gain, 1.1 Gain, 2.4 Gain and 1.8 Gain respectively with 160, 160, 100, 100 viewing angles

Extra Large 3 inch borders for true cinematic experience

3-ply material with top reflective layer, strong middle layer and bottom black layer to block light

Designed specifically for LCOS, LCD, DLP™, D-ILA, and CRT projectors.

Provides a perfectly flat viewing surface for video projection

Screen built to be mounted to walls and fits most home theatre setups

Elegant High Quality Velvet Covered Solidly Cast Aluminium Frames

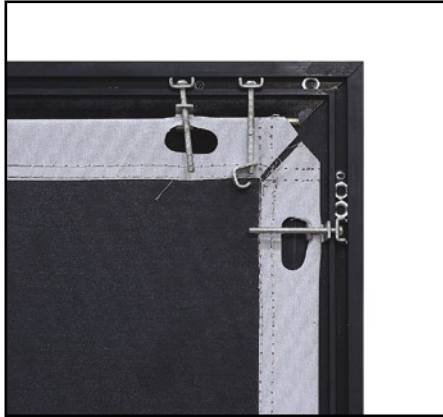

Key Features:

- Designed for wall mounting
- Superb Quality and Price
- Engineered for Video Projection
- Four Screen Materials for Versatility
- Tensioned to be Perfectly Flat
- Velvet Frames for No Reflection
- Superior Picture Enhancement
- 3-ply material for maximum strength
- Simple Assembly, no more than a hour to assemble the screen

Quality Construction

The tension system uses tension screws to hold the screen tight and flat. These screws can be tightened by screw driver to increase or decrease tension
